

## MARBOCOTE MOULD CLEANING

- TO USE MOULD CLEANER WIPE ON A WET FILM, THEN WITH A SEPARATE CLOTH WIPE OFF & WIPE DRY
  - IF THE CLOTHS BECOME DIRTY &/OR AFTER 10sqm CHANGE BOTH CLOTHS
  - IF YOU DO THIS QUICKLY & WITHOUT TOO MUCH HARD RUBBING FOR INSTANCE TO REMOVE LIGHT BUILD UP, THE RELEASE FILM WILL NOT BE DISTURBED, SO YOU NEED ONLY APPLY ONE COAT OF RELEASE & PROCEED
- IF THE CLEANING IS VERY INTENSE WHEN REMOVING HEAVY BUILD UP THEN YOU WILL NEED TO TREAT THE MOULD AS A REFURBISHMENT AND APPLY 2 COATS SEALER + 4 COATS RELEASE
- ALL RELEASE AGENT WILL BE REMOVED IF YOU USE A BUFFING COMPOUND ON A CLEAN SURFACE, THIS IS THE EASIEST WAY TO REMOVE ALL RELEASE AGENT IF NECESSARY
